

**BIGGEST DIAMOND FOUND IN AMERICA NOW IN THIS CITY**

Discovered in British Guiana in What Promises to Be a Productive Mine.

What is believed to be the largest diamond ever found in the Western Hemisphere was brought to this country yesterday by Prof. W. J. Lavarre of the Smithsonian Institution in Washington, who arrived from Trinidad on board the Lamport and Holt steamship Vestris.

The diamond, which is in the rough, has not yet been weighed or measured. It was brought North in a sealed packet in the care of the purser of the ship. It will be taken to-day to the Appraiser's Stores for appraisal. It was found in British Guiana in what Prof. Lavarre says will be a productive diamond mine. He brought several smaller specimens.

**GETS THE LEVIATHAN JOB.**

WASHINGTON, Jan. 11.—The Leviathan will be reconditioned at the yard of the Newport News Shipbuilding and Dry Dock Company at Newport News, Va. President Harding, it was said at the White House to-day, has declined to intervene on behalf of the employees of the Boston Navy Yard who asked that the ship be sent there.

White House officials said Mr. Harding had been informed by the Navy Department that as a matter of fact it was not possible for that yard to submit an estimate.

The Newport News yard submitted the lowest bid, about \$6,000,000 for general repairs and about \$1,000,000 for decorations and other work. As soon as Congress appropriates the necessary funds the Leviathan will be sent to Newport News.

**VICTROLA NEWS**

Have you heard that charming little composition by Boisdoffe—*At the Brook*? It is played for the Victrola by the Tollefsen Trio, and it seems to have a peculiar fascination for all who hear it.

It is one of the records that we often use to demonstrate the musical possibilities of the Victrola, and to prove how enjoyable the instrument really is.

Even in this late day we often hear the remark: "Oh, yes; it's good for dancing"—implying, obviously, that for other kinds of music the phonograph is still lacking. This is not true.

The most interesting and important part of the Victor catalog of music today is the Red Seal list, which offers the great artists in a really wonderful repertoire.

For instance: ask to hear the beautiful duets and quartets from *Faust*. These alone will prove the point.

And please remember that any Victrola you desire—from \$25 to \$1,250—may be had immediately on convenient terms of payment.

**The Prize-winning Drawings**

of the Children's Tenth Annual Christmas Drawing Contest are now on exhibition on the Third Gallery, New Building.

The jury, which consists of the Art Supervisors of the Public Schools, agree that the work this year is of a higher standard than ever before, and that there is an artistic quality, especially in the original work, that is quite remarkable.

The exhibition will be on view all this week.

Public School No. 93, Ninety-third Street and Amsterdam Avenue

received the flag award for the best showing; but a flag was also awarded to Public School No. 17, Bronx (City Island), which tied with Public School No. 93 in number of prizes, but did not equal it in first prizes.

More than 15,000 drawings were entered in the competition—the largest ever received in this annual affair. Work was received from cutting districts, from private schools and individuals, as well as from the public schools.

Altogether 221 schools competed.

The prize-winning drawings may be called for after next week.
